Chapter Three System Testing Record	23
System Test Case (STC-01): Doctors can view a doctor home page on the web application.	23
System Test Case (STC-02): Doctors can create patient's profiles on the web application application by inputting personal id, name, surname, prescription or username.	23
System Test Case (STC-03): Doctors can update patient's profiles on the web application application by inputting personal id, name, surname, prescription and username.....	24
System Test Case (STC-04): Doctors can delete patient's profiles on the web application.	25
System Test Case (STC-05): Doctors can search patient's profiles on the web application by using personal id, name or surname	26
System Test Case (STC-06): Doctors can view patient's profiles on the web application.....	27

Document Name	Smart Prescription Application Test Record_V 2.0	Owner	Natthakan Kaeokanpai, Phithiwat Sitthitun	Page	3
Document Type	Test Record	Release Date	July 30 th , 2016	Print Date	July 30 th , 2016

System Test Case (STC-07): Doctors can view a list of patient's profiles on the web application.	27
System Test Case (STC-08): Administrators can view an admin home page on the web application.	27
System Test Case (STC-09): Administrators can add user's profiles on the web application by inputting name, surname, username, password, confirm-password and position.	28
System Test Case (STC-10): Administrators can update user's profiles on the web application by inputting name, surname, username, password, confirm-password and position.	29
System Test Case (STC-11): Administrators can delete user's profiles on the web application.	30
System Test Case (STC-12): Administrations can search user's profiles on the web application by using name, surname or username.	30
System Test Case (STC-13): Administrations can view user's profiles on the web application.	31
System Test Case (STC-14): Administrations can view a list of user's profiles on the web application.	31
System Test Case (STC-15): Doctors, Administrations, and FDAs can login to the web application.	32
System Test Case (STC-16): Doctors, Administrations, and FDAs can logout from the web application.	32
System Test Case (STC-17): Doctors can create allergy report on the web application by inputting personal id, name, surname, and allergy drug.	33
System Test Case (STC-18): Doctors can update an allergy report on the web application by inputting personal id, name, surname, and allergy drug.	34
System Test Case (STC-19): Doctors can delete an allergy report on the web application.	35
System Test Case (STC-20): Doctors can search allergy reports on the web application by using personal id, name or surname.	35
System Test Case (STC-21): Doctors can view an allergy report on the web application.	36
System Test Case (STC-22): Doctors can view list of allergy reports on the web application.	36
System Test Case (STC-23): FDAs can view a FDA home page on the web application.	36
System Test Case (STC-24): FDAs can view an allergy report on the web application.	37
System Test Case (STC-25): FDAs can view list of allergy reports on the web application.	37
System Test Case (STC-26): Patients can login to the mobile application by using username and password.	37
System Test Case (STC-27): Patients can logout from the mobile application.	38
System Test Case (STC-28): Patients can view the QR code on the mobile application.	38
System Test Case (STC-29): Pharmacists can scan the QR code on the mobile application.	38
System Test Case (STC-30): Pharmacists can add the time of dispensation to patient's profile on the mobile application.	39

Document Name	Smart Prescription Application Test Record_V 2.0	Owner	Natthakan Kaeokanpai, Phithiwat Sitthitun	Page	4
Document Type	Test Record	Release Date	July 30 th , 2016	Print Date	July 30 th , 2016

Chapter One | Introduction

1.1 Purpose

The purpose of Test Record is for recording the actual result of each test case that has been designed in Test Plan. The test cases documented in Test Plan are performed to compare the actual results and the expected results and the test results (Pass or Fail) are documented here. This Test Record provides the result on our whole project.

1.2 Responsibility

Item	Responsibility
Record unit test of “Smart Prescription Application” web application	Natthakan Kaeokanpai, Phithiwat Sitthitun
Record system test of “Smart Prescription Application” web application	Natthakan Kaeokanpai, Phithiwat Sitthitun
Record unit test of “Smart Prescription Application” mobile application	Natthakan Kaeokanpai, Phithiwat Sitthitun
Record system test of “Smart Prescription Application” mobile application	Natthakan Kaeokanpai, Phithiwat Sitthitun

Document Name	Smart Prescription Application Test Record_V 2.0	Owner	Natthakan Kaeokanpai, Phithiwat Sitthitun	Page	5
Document Type	Test Record	Release Date	July 30 th , 2016	Print Date	July 30 th , 2016

Chapter Two | Unit Testing Record

2. Testes Smart Prescription Application

2.1 Class SiteController

2.1.1 Unit Test Case (UTC-01): login(String username, String password) :
Boolean

Test date: July, 25th 2016

Tested by: Natthakan Kaeokanpai, Phithiwat Sitthitun

ID	Expected Result	Actual Result	Pass/Fail
1	True	True	Pass
2	False	False	Pass
3	False	False	Pass
4	False	False	Pass
5	False	False	Pass
6	False	False	Pass

2.1.2 Unit Test Case (UTC-02): logout() : Boolean

Test date: July, 25th 2016

Tested by: Natthakan Kaeokanpai, Phithiwat Sitthitun

ID	Expected Result	Actual Result	Pass/Fail
1	True	True	Pass

Document Name	Smart Prescription Application Test Record_V 2.0	Owner	Natthakan Kaeokanpai, Phithiwat Sitthitun	Page	6
Document Type	Test Record	Release Date	July 30 th , 2016	Print Date	July 30 th , 2016

2.2 Class UserController

2.2.1 Unit Test Case (UTC-03): getUserList() : ArrayList

Test date: July, 25th 2016

Tested by: Natthakan Kaeokanpai, Phithiwat Sitthitun

ID	Expected Result	Actual Result	Pass/Fail
1	<pre> ArrayList<User>{ User{ id = 15 name = "Phithiwat", surname = "Sitthitun", username = "phithi", password = "1234", pssword2 = "1234", roleId = 1 } User{ id = 2 name = "Natthakan", surname = "Kaeokanpai", username = "natthakan", password = "man", password2 = "man", roleId = 2 } User{ id = 3 name = "Tony", surname = "Stark", username = "tony", password = "tony", password2 = "tony", roleId = 3 } }</pre>	<pre> ArrayList<User>{ User{ id = 15 name = "Phithiwat", surname = "Sitthitun", username = "phithi", password = "1234", pssword2 = "1234", roleId = 1 } User{ id = 2 name = "Natthakan", surname = "Kaeokanpai", username = "natthakan", password = "man", password2 = "man", roleId = 2 } User{ id = 3 name = "Tony", surname = "Stark", username = "tony", password = "tony", password2 = "tony", roleId = 3 } }</pre>	Pass

Document Name	Smart Prescription Application Test Record_V 2.0	Owner	Natthakan Kaeokanpai, Phithiwat Sitthitun	Page	7
Document Type	Test Record	Release Date	July 30 th , 2016	Print Date	July 30 th , 2016

2.2.2 Unit Test Case (UTC-04): viewUser(Int userId) : Mixed

Test date: July, 25th 2016

Tested by: Natthakan Kaeokanpai, Phithiwat Sitthitun

ID	Expected Result	Actual Result	Pass/Fail
1	User{ id = 15 name = "Phithiwat", surname = "Sitthitun", username = "phithi", password = "1234", pssword2 = "1234", roleId = 1 }	User{ id = 15 name = "Phithiwat", surname = "Sitthitun", username = "phithi", password = "1234", pssword2 = "1234", roleId = 1 }	Pass
2	False	False	Pass
3	False	False	Pass
4	False	False	Pass

2.2.3 Unit Test Case (UTC-05): createUser(User user) : Boolean

Test date: July, 25th 2016

Tested by: Natthakan Kaeokanpai, Phithiwat Sitthitun

ID	Expected Result	Actual Result	Pass/Fail
1	True	True	Pass
2	False	False	Pass
3	False	False	Pass
4	False	False	Pass
5	False	False	Pass
6	False	False	Pass
7	False	False	Pass
8	False	False	Pass
9	False	False	Pass
10	False	False	Pass
11	False	False	Pass
12	False	False	Pass

Document Name	Smart Prescription Application Test Record_V 2.0	Owner	Natthakan Kaeokanpai, Phithiwat Sitthitun	Page	8
Document Type	Test Record	Release Date	July 30 th , 2016	Print Date	July 30 th , 2016

2.2.4 Unit Test Case (UTC-06): updateUser(User user) : Boolean

Test date: July, 25th 2016

Tested by: Natthakan Kaeokanpai, Phithiwat Sitthitun

ID	Expected Result	Actual Result	Pass/Fail
1	True	True	Pass
2	False	False	Pass
3	False	False	Pass
4	False	False	Pass
5	False	False	Pass
6	False	False	Pass
7	False	False	Pass
8	False	False	Pass
9	False	False	Pass
10	False	False	Pass
11	False	False	Pass
12	False	False	Pass

3.2.5 Unit Test Case (UTC-07): deleteUser(Int userId) : Boolean

Test date: July, 25th 2016

Tested by: Natthakan Kaeokanpai, Phithiwat Sitthitun

ID	Expected Result	Actual Result	Pass/Fail
1	True	True	Pass
2	False	False	Pass

3.2.6 Unit Test Case (UTC-08): searchUser(String users) : ArrayList

Test date: July, 25th 2016

Tested by: Natthakan Kaeokanpai, Phithiwat Sitthitun

ID	Expected Result	Actual Result	Pass/Fail
1	ArrayList<User>{ User{ id = 15 name = "Phithiwat", surname = "Sitthitun", username = "phithi", password = "1234", pssword2 = "1234", roleId = 1 } }	ArrayList<User>{ User{ id = 15 name = "Phithiwat", surname = "Sitthitun", username = "phithi", password = "1234", pssword2 = "1234", roleId = 1 } }	Pass
2	ArrayList<User>{ User{ id = 3 name = "Tony", surname = "Stark",	ArrayList<User>{ User{ id = 3 name = "Tony", surname = "Stark",	Pass

Chapter Three | System Testing Record

System Test Case (STC-01): Doctors can view a doctor home page on the web application.

Test date: July, 25th 2016

Tested by: Natthakan Kaeokanpai, Phithiwat Sitthitun

ID	Expected Result	Actual Result	Pass/Fail
1.1	The system shall display the doctor home page which includes information of current doctor, patient options menu box and allergy options menu box.	The system display the doctor home page which includes information of current doctor, patient options menu box and allergy options menu box.	Pass

System Test Case (STC-02): Doctors can create patient's profiles on the web application application by inputting personal id, name, surname, prescription or username.

Test date: July, 27th 2016

Tested by: Natthakan Kaeokanpai, Phithiwat Sitthitun

ID	Expected Result	Actual Result	Pass/Fail
1.1	System saves the patient's information to the database and also display the patient's profile.	System saves the patient's information to the database and also display the patient's profile.	Pass
1.2	System displays error message "Personal ID has already been exist."	System displays error message "Personal ID has already been exist."	Pass
1.2	System displays error message "Personal ID is Invalid".	System displays error message "Personal ID is Invalid".	Pass
1.3	System displays error message "Personal ID is Invalid".	System displays error message "Personal ID is Invalid".	Pass
1.4	System displays error message "Personal ID cannot be blank".	System displays error message "Personal ID cannot be blank".	Pass
1.5	System displays error message "Name cannot be blank".	System displays error message "Name cannot be blank".	Pass
1.6	System displays error message "Name is invalid"	System displays error message "Name is invalid"	Pass
1.7	System displays error message "Name is invalid"	System displays error message "Name is invalid"	Pass
